CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind.
Every industry has unique workflow needs. Toshiba has developed customisable MFPs to make your job easier. Intuitive and smartly integrated, our products simplify complex tasks and give you control while providing the reliability Toshiba is known for.

Toshiba's latest series delivers on our promise of Together Information – our commitment to collaborate with clients in order to provide tailored, cost-effective solutions to meet specific print, document management and content needs while helping you to meet your green objectives.

Faster, sleeker, and more volume than ever.

Toshiba's high-end A3 monochrome line-up has a sleek new design, on the outside and inside. With an impressive paper capacity of 6,020 sheets and innovative functionality from the e-BRIDGE Next controller, users can create crisp clean monochrome prints at speeds of up to 85 pages per minute.

- Speeds of 55/65/75/85 ppm
- Extra high-volume printing with outstanding print quality that meets the highest of expectations
- Advanced Toshiba e-BRIDGE controller technology for high-quality document output with a resolution of up to 3,600 dpi x 1,200 dpi
- High-speed, high-capacity Dual Scan Document Feeder for amazing document processing

Improve productivity and connectivity while simplifying your workflows.

Simple, smart and stylish.

A new 9" tablet-style touch screen with an embedded web browser is easy to use and customisable to meet your needs. Part of the bold new look being introduced across the new e-STUDIO series.

HOW TOSHIBA IS RAISING THE STANDARD.

Toshiba provides innovative technology that really makes a difference. The e-STUDIO8508A series offers the latest e-BRIDGE controller technology, enabling complete third-party integration and support for internally driven solutions.

AirPrint and Mopria support means mobile users can print to the MFP with ease. The e-BRIDGE Print & Capture app provides additional capabilities including the ability to scan from the MFP back to your mobile device.

Cloud Support

New Scan-to-Cloud and Cloud Print capabilities increase productivity by letting users store documents remotely and access stored documents for printing. Whether it's Dropbox, Microsoft OneDrive or Google Drive, Toshiba MFPs make scanning to cloud-based locations a breeze.

The support for Google Cloud Print enables easy printing to the MFP from wherever you may be. Print jobs can be sent from outside the network environment without the need to install a printer driver.

Advanced Security

Toshiba understand that security is a top concern for all organisations. The e-STUDIO8508A series offers industry-leading technological achievements, such as:

- The self-encrypting Toshiba Secure HDD which provides top level security
- Optional security functions which make the systems compliant with IEEE2600.1 and meet the EAL3 Common Criteria requirements
- IPsec to securely encrypt data sent to and from the MFP

Environmental Responsibility

Toshiba is continuously working towards a more sustainable future for everyone, which is why our products reflect our commitment to the future of the planet.

- RoHS compliant; use of recycled plastics and a low-power Super Sleep Mode to save resources
- Being ENERGY STAR Tier 2 compliant means the systems meet the latest, most stringent environmental requirements

FEATURES AND BENEFITS AND MORE OF THEM.

The e-STUDIO8508A series improves workgroup connectivity, integrates and simplifies workflows while improving efficiency with superb image quality at unprecedented volumes.

High, Reliable Speeds include 55/65/75/85 monochrome pages per minute.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around jobs that are held-up due to requiring a specific paper size or type.

Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Toner Change On-The-Fly allows you to replace the toner cartridges while the MFP is printing.

Scan-to and Print-from USB lets you print straight from your USB drive or scan documents to it.

Bluetooth/Wi-Fi Option simplifies workflow processes at the MFP and enables Wi-Fi Direct printing — ideal for mobile users.

Card Readers can be installed discreetly behind the cover of the systems. Providing fast and convenient access to your print jobs and increased data security.

A 9" Tablet-Style Touch Screen helps you access instructions, functions, and commands with the swipe of the finger.

With a large touch screen, document handling has never been easier. Size and order of icons as well as the background image can be customised. Enjoy the unique experience of working with a system that understands what you want.

Multi Station Print offers a serverless printing solution that allows you to release your print job at any of up to ten MFPs within your network. Irrespective of the system it was originally sent to. Simply authenticate at the system of your choice - either by card or by pin - to collect your documents.

If necessary, you can even make some last-minute changes to the print settings directly at the MFP itself or simply re-print documents without having to re-send them. Saving time and reducing waste. Plus, your documents are safe, as they cannot be printed without you first authenticating at a system.

CONFIGURATION

HIGHLIGHTS

Advanced e-BRIDGE Technology
 Toshiba's next-generation e-BRIDGE architecture features an embedded web browser, 4 GB RAM and the Toshiba Secure Hard Disk Drive enabling the MFP to easily drive Toshiba's internally developed solutions or even third-party applications.

Dual Scan Document Feeder
 The 300-sheet capacity, high-speed, high-capacity document feeder seamlessly scans both sides of each page in a single pass to produce up to 240 ipm.

Embedded Apps
 The optional e-BRIDGE Plus apps for Microsoft OneDrive, Google Drive and Dropbox let you send your documents directly to or print from cloud services via the MFP.
